**2. Reports ..... 3**

**Additional Information ..... 4**

## Release Information

This release introduces further enhancements to the MSP Hub portal, including a new **Cost Forecast Report** for customers, helping them estimate future spending based on product quantities, renewals, and discounts. A **task system** has been implemented to support Coro order fulfillment, allowing the required information to be completed before processing.

## Features

### 1. Task System for Coro Orders

A task system has been implemented to manage Coro order fulfillment. Any order containing Coro products will now create a task, allowing the purchasing partner to complete the required details before the order is processed. As of now, this feature applies only to Coro orders, with plans to expand it in future releases.

Name	Task Type	Customer	Expiration	Task Status	Action
Fulfill Order #SO-20258	Order Fulfillment	Test_P	7/9/2025 12:59:56 PM	Pending	Complete Task
Fulfill Order #SO-2025107	Order Fulfillment	Test_C	7/9/2025 12:20:25 PM	Pending	Complete Task
Fulfill Order #SO-202595	Order Fulfillment	Test_C	7/7/2025 5:50:57 PM	Pending	Complete Task
Fulfill Order #SO-202590	Order Fulfillment	Test_C	7/2/2025 10:47:06 AM	Pending	Complete Task
Fulfill Order #SO-202589	Order Fulfillment	Test_C	6/30/2025 3:27:16 PM	Pending	Complete Task

### 2. Reports

In this release, a new report has been introduced for customer tenants:

#### ➤ Customer Tenant

- **Cost Forecast Report**

A **Cost Forecast Report** has been added for customers, providing estimated spending over the next 3, 6, 9, and 12 months. Forecasts are based on current product quantities, auto-renew settings, and applied discounts.

**Reports**

**Available Reports**

Explore detailed reports designed to provide comprehensive insights into various aspects of your business. Each report helps you track performance, analyze trends, and make informed decisions with real-time data.

- Cost by Product**  
Analyze product-specific spending with a clear breakdown of total costs, savings, and discount trends by category.
- License Snapshot**  
The License Snapshot report highlights the current state of licenses, including totals, assignments, and upcoming expirations.
- Cost Forecast**  
Analyze specific cost forecasts with a clear breakdown to understand expected revenue based on current licenses and renewals.

**Report Subscriptions**

Track and manage your active report subscriptions. View details like frequency, report types, and selected reports.
